Re: Reference of employment

Dear Sirs:

Haitao Yin was a Software Development Intern with Tweekaboo for 6 months from March – Sep 2013.

Haitao did an excellent job at Tweekaboo. For a 3rd year college student, he took full responsibility for all aspects of the Tweekaboo mobile website. He completely rewrote the mobile website and performed a massive upgrade with little or no supervision.

Haitao is technically creative. He is a rare talent that possesses technical curiosity, inventiveness; self-drive and very sharp intellect. I rate him as one of the brightest talents I have ever had the pleasure of working with.

I have no hesitation in recommending Haitao as an excellent employee with plenty of drive and ability to deliver work of the highest quality.

Haitao would be a valuable addition to any organisation; whether in this field or any other.

If you have any further specific enquiries, don't hesitate to contact me.

Yours faithfully

Eugene Murphy (Founder)
